

# Computer Fundamentals

Dr. Safdar Nawaz Khan Marwat  
DCSE, UET Peshawar

Lecture 7

# Number System Conversion

- Direct conversions possible for
  - ❑ Binary to octal and vice versa
  - ❑ Binary to hexadecimal and vice versa
  - ❑ Decimal to octal and vice versa
  - ❑ Decimal to hexadecimal and vice versa
- Numbers with other bases
  - ❑ ???

# Decimal - Octal Conversion

➤ Convert  $(75)_{10}$  to octal

8	75	remainder
8	9	3
8	1	1
	0	1

$(113)_8$

# Decimal - Octal Conversion (cont.)

➤ Convert 113 from octal to decimal

$$\begin{aligned}(113)_8 &= 1 \times 8^2 + 1 \times 8^1 + 3 \times 8^0 \\ &= 64 + 8 + 3 \\ &= (75)_{10}\end{aligned}$$

# Decimal - Hexadecimal Conversion

➤ Convert  $(75)_{10}$  to hexadecimal

16	75	remainder
16	4	B
	0	4

$(4B)_{16}$

# Decimal - Hexadecimal Conversion (cont.)

- Convert 4B from hexadecimal to decimal

$$(4B)_{16} = 4 \times 16^1 + 11 \times 16^0$$

$$= 64 + 11$$

$$= (75)_{10}$$

# Numbers with Other Bases

- Numbering systems possible with other bases
  - ❑ Base 3, 4, 5 etc.
- Conversion to decimal or any other base possible

# Base-3 System

- Base 3 numbers expressed in positional notation

The right-most is the least significant digit

$$1202 = 1 \times 3^3 + 2 \times 3^2 + 0 \times 3^1 + 2 \times 3^0$$

The left-most is the most significant digit

# Base-3 System (cont.)

## ➤ Constituents of a decimal number

$$1202 = 1 \times 3^3 + 2 \times 3^2 + 0 \times 3^1 + 2 \times 3^0$$

1's multiplier

1

# Base-3 System (cont.)

- Constituents of a decimal number

$$1202 = 1 \times 3^3 + 2 \times 3^2 + 0 \times 3^1 + 2 \times 3^0$$

3's multiplier

Diagram illustrating the expansion of the decimal number 1202 into its base-3 components. The number 1202 is shown with the digit 0 highlighted in green. A green bracket above the 0 is labeled with the number 3. A green arrow points from the text "3's multiplier" below to the green 0 in the expansion.

# Base-3 System (cont.)

## ➤ Constituents of a decimal number

$$1202 = 1 \times 3^3 + 2 \times 3^2 + 0 \times 3^1 + 2 \times 3^0$$

9's multiplier

9

# Base-3 System (cont.)

## ➤ Constituents of a decimal number

$$1202 = 1 \times 3^3 + 2 \times 3^2 + 0 \times 3^1 + 2 \times 3^0$$

27's multiplier

Diagram illustrating the expansion of the decimal number 1202 into its base-3 components. The number 1202 is shown on the left. A green bracket above the 27 indicates the base. The equation shows the expansion:  $1202 = 1 \times 3^3 + 2 \times 3^2 + 0 \times 3^1 + 2 \times 3^0$ . A green bracket below the 1202 and the 1 in the equation indicates the multiplier 27.

# Base 3 - Decimal Conversion

➤ Convert 75 from decimal to base 3

3	75	remainder
3	25	0
3	8	1
3	2	2
	0	2

$(2210)_3$

# Base 3 - Decimal Conversion (cont.)

- Convert 2210 from base 3 to decimal

$$\begin{aligned}(2210)_3 &= 2 \times 3^3 + 2 \times 3^2 + 1 \times 3^1 + 0 \times 3^0 \\ &= 54 + 18 + 3 + 0 \\ &= 75\end{aligned}$$

# Exercise

- Convert  $(95)_{10}$  to base 2, base 3 and base 16 numbers

# Logical Operations Revisited

- Truth table for three or more input variables
  - ❑ Follow stepwise approach

$x$	$y$	$z$	$x \oplus y$	$(x \oplus y) \cdot z$
0	0	0	0	0
0	0	1	0	0
0	1	0	1	0
0	1	1	1	1
1	0	0	1	0
1	0	1	1	1
1	1	0	0	0
1	1	1	0	0

# Diagrammatic Representation

- Graphical depiction of boolean expression

# Diagrammatic Representation (cont.)

- Draw diagram for representation of boolean expression

$$(x \oplus y) \cdot z$$

# Exercise

➤ Derive truth table for  $(x + y) \oplus z$

$x$	$y$	$z$		
0	0	0		
0	0	1		
0	1	0		
0	1	1		
1	0	0		
1	0	1		
1	1	0		
1	1	1		

# Exercise (cont.)

- Draw diagram of boolean expression

$$(x + y) \oplus z$$

# Exercise (cont.)

➤ Derive truth table for  $\overline{(x + y)} \oplus \bar{z}$

$x$	$y$	$z$				
0	0	0				
0	0	1				
0	1	0				
0	1	1				
1	0	0				
1	0	1				
1	1	0				
1	1	1				

# Exercise (cont.)

- Draw diagram for representation of boolean expression

$$\overline{(x + y)} \oplus \bar{z}$$

# Exercise (cont.)

- Label the diagram
- Write the boolean expression for this diagram
- Determine truth table for the following logic diagram
